Data Science in Advertising & Marketing 101

BY DR MARK CHIA

Course Overview

We live in a world where huge amounts of data is constantly being generated. Organisations need to embrace the data tsunami or risk being made irrelevant. With the advent of IR4.0, organisations need to leverage their data to drive business value and organisational effectiveness.

Due to advances in technology, the use of data science is making this possible. This involves using machines to automate tasks and emulate human behaviour in order to drive insights and solve problems.

Methodology

This course will utilise a combination of instructor-led presentations, case studies and quizzes to help participants enhance their understanding of the concepts in data science.

Pre-requisite

This is a beginner-friendly course with no pre-requisite. Part of this course utilizes Power Query and Power Pivot. It would be helpful for participants to own laptops with Excel 2016 or later versions installed. For Mac users, please check if Power Query and Power Pivot can be installed.

Learning Outcome

Upon completion of the course, the participants would be able to:

1. Understand the fundamentals of data science
2. Know the importance of data in deriving useful insights
3. Know why data is important for decision making
4. Use Excel as a tool for analytics

Target Audience

This programme is designed for advertising and marketing professionals to gain the fundamentals of data science, how data science can be a powerful tool in analytics and decision-making. No data science experience required.

Recommended for people seeking to learn the fundamentals of data science in advertising and marketing

- Brand Marketing & Communication Executives
- Planning & Research Executives
- Account/Client Management Executives in advertising agencies
- Planners & Buyers in digital and media agencies

ABOUT THE TRAINER

BY DR MARK CHIA

Mark is the founder of Mobius Group where he is responsible for the vision and strategic direction of the company. He is a thought leader and trainer in data science who is passionate about the data science ecosystem. He is a firm believer in talent development and sits on the advisory boards of various universities. He is also a member of advisory panels in various organisations.

Before launching Mobius, Mark was the Director of Group Data at Astro. He was responsible for the integration, utilisation and monetisation of data across the Astro Group. He brought together the disciplines of data management, visualisation and advanced analytics to generate value for Astro. Prior to Astro, Mark was the Advanced Analytics Lead at SAS, a global leader in analytics. He also helmed the SAS graduate and internship programmes. He has worked in data science and IT for over 15 years with various companies abroad.
